

## Capability Statement for Purfresh Clean 2022

### Summary:

Purfresh Clean offers effective, high quality, science based and backed deep cleaning technology services. We use treatment product volume level control, timed application, electronic sensing and record keeping to validate best practice service for our customers. There is no other room, space or vehicle decontamination product in the commercial marketplace that can treat objects, surfaces, and air, as well as Purfresh Clean does with our O3 based decontamination systems. All Purfresh Clean products are designed for non-occupied applications only.

### Competitive Differentiators:

- We only apply O3 alongside live reporting sensors to manage correct O3 Levels
- We have dynamic auto control to keep operating O3 levels in the correct range
- We add heavy airflow with O3 cleans in corners, behind furniture, and hard to reach areas
- No liquid chemicals and will not damage valuable items like other cleaners
- Cleans and removes odors and germs from fabric and rugs extremely well
- Leaves zero chemical residue, all O3 changes back to O2 after cleaning is completed
- Our service provides digital science based cleaning records and reports for our clients
- Additional visual impact, color changing clean verification stickers, available for clients
- Disinfection and odor removal service is automated and performed without human labor

### Core Capabilities:

- Deep Odor Removal - Smoke, Pets, Mildew, Spoilage
- Mold Remediation - Eliminate from air, breathe easier, stop mold growth
- Heavy Disinfection - Destroy bacteria, germs, and viruses
- Application for offices, boats, locker rooms, homes, event spaces, vehicles, and more
