

PURFRESH SPACE EQUIPMENT SERVICE AND LEASE AGREEMENT

Purfresh Clean provides fully automated, non-labor systems to disinfect everything. We can make your space clean, sanitized, and odor free without using harmful chlorine or peroxide chemicals. Purfresh Clean offers the best all-in-one solution to:

Remove WPM, germs, odors, bacteria, viruses, mold, and mildew from the air and surfaces of non-occupied areas.

The Purfresh SPACE system with Oxygen-3 (O3), is the latest in cleaning technology. It can be plugged into most standard wall outlets and can run on pre-programed schedules in unoccupied areas. Because O3 moves with our high powered fan systems in the air, it can reach every area of the room, including hard-to-reach corners, surfaces, and behind doors. One SPACE unit can treat **up to 3500 square feet** in 12-24 hours depending on cleaning goals.

Purfresh SPACE, oxygen-3 cleaning systems are unlike any other O3 cleaning systems. Only Purfresh Clean generates O3 **AND monitors, senses, and data records the O3 levels** of our treatments for ultimate safety and protection of people and property. No other O3 systems offers this.

Portable and compact, Purfresh SPACE is easy to set up and to operate. Once in the desired location, Purfresh SPACE is powered by a standard wall outlet. Once the area is **cleared of occupants**, the application is triggered remotely using the Purfresh software or smart phone app. Purfresh SPACE will then simultaneously disinfect the air, all surfaces and ventilation system. O3 levels are monitored real-time in the cloud and documented to provide a record for our clients after every treatment.

At the end of the treatment, O3 generation is turned off, and ALL O3 will breakdown to O2 (standard oxygen) within 30 minutes.
