Why Use Purfresh SPACE with Oxygen 3

Purfresh Clean SPACE equipment offers effective, high quality, science based and backed deep cleaning technology services. We use treatment product volume level control, timed application, electronic sensing and record keeping to validate best practice service for our customers. There is no other room, space or vehicle decontamination product in the commercial marketplace that can treat objects, surfaces, and air, as well as Purfresh Clean does with our O3 based decontamination systems. All Purfresh Clean products are designed for non-occupied applications only.
